Society of Broadcast Engineers
Chapter 59

Minutes of the July 10, 2024 Meeting

The July meeting of Chapter 59 of the **Society of Broadcast Engineers** was held July 10, 2024 at the Merriam Plaza Library Meeting Room; 6120 Slater Street, Merriam, Kansas. Dave Buell, past chapter vice chairman, was in charge. There were 9 in attendance.

Buell called the meeting to order at 12:20 PM. He asked Ben Weiss, secretary/treasurer, to read the minutes of the June meeting. The motion to accept the minutes was by Robin Cross and the second by John Gray. The motion passed unanimously.

John Gray, chapter program chairman, mentioned that he is currently working with American Tower to set up a program for August. It will be an Engineer Appreciation Event. All Kansas City area broadcast engineers are invited and encouraged to attend.

Chriss Scherer brought us up to date with news from the SBE National office and mentioned that it's time to participate in the annual election of officers. Those of us that have email addresses and are members of SBE will or have already received the email directing us to vote. The process is simple but the dead line to do so is August 7th. If you have elected to vote by regular mail you should have received your ballot by mail.

The motion to adjourn was by Kirk and the second was by Ben. The business meeting closed at 12:24PM.

The program was presented by Kevin Dennis, Regional Sales Director of SAF North America. He discussed some history of TV broadcast microwave solutions STL/TSLs that support ATSC1.0 and the technical considerations needed to convert and support ATSC3.0 Next Generation Television STL signals.
